

TRANSFER STATION INFORMATION:

If your compost has twigs and branches combined with the grass and leaves, please dump it in the tree pile. Twigs and branches will not compost. With the proper care, some nice dirt will eventually come out of the compost pile. Thank you.

There were some tires in the Loraas bin at the transfer station when the bins were picked up June 9. Tires are **NOT** allowed at the transfer station at all. Loraas charged an extra \$44 for this infraction. Environmental regulations are very strict and the Town must abide by these regulations to avoid having to close our transfer station. These infractions cost the Town (your Town tax dollars) extra money so please abide by the rules of the transfer station so this service can continue to be available for your use. It is because of these infractions (tires in the bins and a headboard in the tree pile) that the Town Office is unable to sign out keys to the transfer station during the day when the station isn't open.
